

# DROPPING OBJECTS

EARLY INTERVENTION WITH YOUR YOUNG CHILD

*Every child is different. Do what works best for encouraging your child's independent exploration of this suggested activity.*

## ACTIVITY DESCRIPTION:

Help your child notice that things fall down by talking about what happens when something falls off a table or when they drop an object.

## STEM LEARNING AREA:

**Physical Science (concepts related to objects/things, what they do, and how they move):**

- Force & Motion (concepts related to objects moving, how they move, and how to make them move)
- Gravity (force that pulls things to each other; especially things to the ground)

## STEM PROGRESSION STEP:

**Gravity Noticer:** Has an intuitive understanding that things will fall down

## WHAT CAN I SAY?:

- Fall, Fell, Down, Dropped
- *"Uh oh! The car fell down again! Let's see. Do you think this one will also fall down?"*

## IDEAS TO SUPPORT MY CHILD'S GOAL:
